Description of problem that CONTINUES TO EXIST: list only one problem	Repair Visits	Date In	Date Out	Mileage
<i>at the begining we had 1,200 on 8-7-2013. We took this car in on 9-10-13. Somethin a month this car had about 499 miles. Paul said it had a short underneath the seat. he said he'd fix it. from AT it was 99 miles and it is only supposed to be 15 to 20 miles to the dealer on the first we took it in. So I also from my house. They found the short under with the seat. The first time.</i>	1st visit	9-10-2013	9-10-2013	1699
